PROFESSIONAL SUMMARY

To begin my career as a full stack developer, applying my knowledge of frontend and backend development to build real-world applications and continuously enhance my technical skills.

TECHNICAL SKILLS

Frontend Development:- HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js

Programming:- Python

Database:- SQL

PROJECTS

Color Image Enhancement using Weighted Guided Image Filtering (WGIF)

- Developed an image enhancement algorithm to improve visibility under low and non-uniform illumination
- Implemented Weighted Guided Image Filtering (WGIF) to preserve edges and reduce noise and halo artifacts
- Applied enhancement on intensity channel using HSI color space to maintain natural color appearance
- Performed image processing and testing using MATLAB with built-in image processing techniques

Pizza Company Web Application – [\[Live – Demo\]](#)

- Developed a responsive web application using React.js, JavaScript, and Tailwind CSS
- Built features like menu display, item selection, and cart functionality
- Managed application state using Redux Toolkit

Student Performance Analytics System (Python + SQL)

- Developed a Student Performance Analytics System using Python and SQL to analyze academic data and generate insights such as average scores, rankings, performance trends. Implemented optimized SQL queries and data processing logic to improve decision-making and reporting.

EDUCATION-DETAILS

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering

Vaagdevi Institute of Technology and Science, Proddatur

2022 – 2026

Percentage: 73%

Intermediate (MPC) | Sai Parameshwara Junior College, Jammalamadugu

2020 – 2022 | Marks: 725/1000

Secondary School (10th) | Z.P.H School, Veparala

2014 – 2019 | CGPA: 8.0 /10

CERTIFICATION

React Basic – [\[Hacker Rank\]](#)
